DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-8, 10-15, and 17-30 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 10, 11, 13, 15, 17-23, 25 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Jensen US Patent 3,320,832.

Jensen discloses a drill assembly comprising a drill guide (17), an elongated shaft (1 & 20), an elongated hollow sleeve (2) and a stop member (7 & 8). The elongated shaft has a proximal and distal end. The sleeve is slidably disposed around at least a portion of the shaft, and the sleeve includes a stepped region. The stop member is disposed around the shaft and adjustable to mate to the shaft at a plurality of fixed positions along a length of the shaft. The stop member being effective to abut the hollow sleeve.

Regarding claims 2-4 and 17-19, see Figures 1-2.

Regarding claim 20, see element 3.

Regarding the word “adapted to” in multiple claims, it has been held that the recitation that an element is “adapted to” perform a function is not a positive limitation but only requires the

ability to so perform. It does not constitute a limitation in any patentable sense. *In re Hutchison*, 69 USPQ 138.

Allowable Subject Matter

Claims 6-8, 12, 14, 24, and 26-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
